ABSTRACT

This annual report provides information about the costs of attending colleges and universities. Although most of the institutions listed are in the US, some Canadian institutions are included as well as a number of junior and community colleges. Specific purposes of this publication are to: help financial aid officers verify schooling allowances; facilitate cooperation among colleges with mutual aid applicants; serve as a reference for scholarship sponsors; and create a greater awareness of college costs and a subsequent demand for financial aid to students. Expenses reported cover a normal academic year. Data are divided into sections on: state, tuition and fees, resident budgets, commuting budgets, and out-of-state charges. (JS)

Student Expense Budgets of American Colleges and Universities
for the 1967-68 Academic Year

This publication, produced annually by the College Scholarship Service, is distributed to all participating institutions. This year, for the first time, junior and community colleges have been included in this listing. Some Canadian institutions are also included. Its aim is (1) to assist financial aid officers in setting appropriate schooling allowances as adjustments to entries made in Parents' Confidential Statements, and (2) to facilitate cooperation between colleges on appropriate awards to mutual financial aid candidates.

Data for the publication have been compiled from the information each institution submitted to the College Scholarship Service on the form, "College Estimate of Student Expenses." Some colleges do not appear because they requested exclusion, filed incomplete data, or returned their data too late to be included in the listing.

The information is reported as submitted by the individual colleges. It includes tuition and living expenses, varying amounts for personal expenses, books, travel, or commutation expenses. Because some institutions did not enter any amounts for several of these items, it was necessary to leave certain items blank.

Each report on a college or university is divided into the following sections:

1. Tuition and Fees - includes tuition, general, university, college or state institutional fees if identified. In some cases, adjustments or averages were made on the listing. Deviate charges for certain curriculums or student classifications could not be accommodated.

2. Resident budgets - includes all tuition charges, fees, room and board, books, personal expenses, and travel allowances entered by the college or university.

3. Commuting budgets - includes all tuition charges, fees, books, commutation and maintenance allowances entered by the college or university.

4. Out-of-state charges - includes the additional fee the college or university entered as a charge to students who are not residents of the state in which the institution is located. Some colleges also have charges for out-of-community and district students. For simplicity these have been combined and shown as out-of-state charges.

5. An asterisk (*) indicates an institution which has a guaranteed tuition or fixed cost plan.

The staff of the College Scholarship Service hopes that financial aid officers will find this publication helpful, and it welcomes comments that will assist in the preparation of future editions. The abbreviations for states are those in use in the Bulletin of Information, College Board Admissions Tests. CN is used to indicate Canada.
